July 2, 2021

Dear Member,

I'm excited to let you know about several upgrades that will be taking place on July 12, 2021, all of which are expected to make your life better and dealing with your credit union more convenient.

The biggest upgrade involves that of our data processing system, which is the heartbeat of our operations and runs the majority of our deposit and loan functions. While the system we have been utilizing has performed well for us, the time has come to move to another provider that we feel is more efficient and better able to handle our needs well into the future.

The planning for this upgrade has been in the works for almost a year now and we are looking forward to the actual implementation of the new system, which will occur during the weekend of **July 9-11, 2021**

As part of this upgrade, we've developed a dedicated webpage on our website, which we'll continue to update regularly, to help you understand any impact this will have on the services you utilize with the credit union, such as:

1. **Online Banking:** The new system is called *It's Me 24/7* and allows you to make transfers, pay bills, set up account alerts, and much more....
2. **Mobile Banking:** You will be able to perform many of the same functions available through online banking via the new browser-based mobile banking portion of the *It's Me 24/7* platform.

On behalf of the board of directors and staff I thank you for your continued support of your member-owned credit union and appreciate your patients through this conversion process.

Sincerely,

Mary C Halligan , CCUE
Manager/CEO
